## Fund Breakdown by Market Capitalisation

Data as of 30<sup>th</sup> October 2020, Source: Saracen Fund Managers

## Monthly Commentary

### Market Background

Global markets had another difficult month in October as more severe lockdown restrictions were imposed across a number of countries, including the UK. The last week of the month was particularly weak and affected virtually all of the major markets. Despite this gloomy background we continued to detect a more solid tone to company statements in general, but the second wave of lockdowns could make this a somewhat fragile trend.

### Performance

The Fund held up well and managed a small gain of 0.2% compared to the UK index return of -4.3% and the sector average of -3.6%. This was a decent result in difficult circumstances, with our large weighting towards mid and smallcap companies helping our returns. The FTSE100 bore the brunt of the market falls, declining by 4.8% whilst smallcap indices were broadly flat.

Several of our holdings delivered strong trading updates during the month, most notably Tyman, Halfords and Synthomer, all of whom are now exceeding fairly modest market expectations. NewRiver REIT and DFS both saw strong recoveries from depressed levels, with the latter guiding to a very strong year ahead. For once banks were a positive feature with both Lloyds and Close Brothers rising in response to a generally solid results season for the sector. Our main detractors tended to be more defensive shares such as Imperial Brands, FRP Advisory and Tate & Lyle. However, in each case there was limited new news to focus on. Likewise, Aviva and Johnson Matthey both came back, again with no material new developments to report.

### Portfolio Activity

It was a quiet month overall. We took some profit in Synthomer after their strong statement and added to the holding in Wood Group. The Fund is currently fully invested, reflecting the considerable opportunities we now see across the UK equity market.
